| Number of tardinesses..... | 126 |
| Visits by citizens..... | 198 |
| Visits by superintendent..... | 127 |
| Average salary of teachers per month..... | \$37.34 |

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Landaff:

I herewith submit to you my sixth annual report of the condition of your schools.

ATTENDANCE.

The average attendance for all the schools for the year ending last June was 94.22 per cent. This was the best attendance the schools have ever had. There was also a marked decrease in the number of tardinesses. From statistics it is found that the average attendance for the period of five years under supervision has been seven per cent higher than was the average attendance for the five years previous to 1910.

The amount received from the state for average attendance this year was \$170, an increase of \$80 over the amount received last year. Of course this increase was due in a large measure to the extra four weeks in the last school year.

If the rule, "Good attendance means good schools", holds true it is easy to draw your own conclusions regarding your schools as a whole.

ENROLLMENT.

A glance at the statistical table will show that the enrollment during the past year has been large, 107 different pupils being enrolled during the past two terms. In addition twelve boys and girls from this town have been attending high schools.

About twenty pupils are in the eighth grade this year. This means that the number attending high schools another year will be considerably larger than at the present time. This is a good record for a small town, especially when it is remembered that five years ago not a boy or girl from Landaff was attending a high school.

Some measure should be taken to relieve the overcrowded conditions at the Blue school. Forty-five pupils scattered through the eight grades require more attention than any one person can possibly give them. Miss Bishop is to be commended for untiring efforts and devotion to her work.

SCHOOL WORK.

The work in the schools as a whole has made good progress during the past year. Of course weak spots appear from time to time, and these we try to remedy as rapidly as possible.

Some people have contended that it was impossible to prepare pupils in your schools for high school. If Mr. and Mrs. Pessimist will take the trouble to look up the record of the high school pupils they will find that your boys and girls who are applying themselves to their work are doing well and are a credit to their town.

It is not fair however to expect your boys and girls to do work in thirty weeks that children in other towns are doing in thirty-six weeks. This is particularly true of the upper grades. The boys and girls of Landaff deserve as good opportunities as other children enjoy. This will never be possible until you, Mr. Taxpayer, are willing to support your schools as liberally as other towns do. From the last report of the state superintendent it is seen that the average annual cost per pupil in Landaff was about \$2 below the average for the entire state.

BUILDINGS.

The schoolhouse at the Center was thoroughly repaired last summer. This building and the Blue school are now the best in town. One of the good features of each building is the fact that the toilets are in the building so that it is not necessary for the children to leave the building. It would be much better if some similar arrangement could be made at the other schools.

The Ireland building needs a thorough overhauling. This should be attended to before another school year opens. Minor repairs are needed at the other schools, especially in regard to the toilet arrangements.

VACCINATION.

Your attention is called to Public Statutes 93;2, as amended by 19, laws 1901, and 90, laws 1909: "No child shall attend any public, parochial, or private school unless he has been vaccinated or has had the smallpox, and this section shall be enforced by the board of health, except in the case of a child who has submitted

to the process of vaccination not less than three times, or who holds the certificate of the local board of health that he is an unfit subject for vaccination. Said board of health shall issue such certificate upon the advice of a registered physician approved by said board of health".

The state board of health will require the local boards to enforce this law at the opening of schools next fall.

FINANCES.

In looking at the cost of the schools for the past year you must remember that the amount includes the cost of the winter term last year, i. e., four terms or forty weeks enter into this year's expenses.

A great deal of complaint is heard about the increased cost of the schools. Is there any department in your affairs that does not cost more now than it did ten years ago? Does it not cost more to maintain your house and to run your farm?

Some one says: "The teachers are overpaid". Landaff is paying her teachers an average of \$9 a week. This does not include the \$2 a week that three of the teachers are receiving from the State. The highest salary that any teacher receives will not cause her to hide from the Income Tax collector.

"Supervision is an unnecessary expense". Landaff is paying \$212.50 a year towards the salary of the superintendent. This costs sixty-eight cents on a thousand dollars of valuation. Some think that the state tax is higher because of state aid for schools to the different towns. This rate was fixed by the last legislature and does not vary with the amount received from the state.

Some forget that the item of nearly four hundred dollars for high school tuitions has caused an increase of this amount in the total expense. I understand that there are those who begrudge the boys and girls the opportunity of a high school education and think that it is an unnecessary waste of the district's money.

The cost of books and supplies for the pupils also causes discussion among those who do not take the time to investigate the matter carefully. Landaff spends approximately one dollar per pupil a year while the average cost for the state is \$1.70 according to the last report of the state superintendent. If the parents

would see that their children did not waste the supplies and abuse the books they would help keep this expense down.

SUGGESTIONS.

Visit the schools and see for yourself what is being done.

Encourage the boys and girls to get a good education. They are the men and women of tomorrow and the prosperity of your town will depend upon their successes or failures.

Make the schoolhouses as attractive as possible. Do not allow conditions to exist there that you would not tolerate in your home.

Raise money enough so that the spring term can have fourteen weeks and there can be at least thirty-four weeks in the school year.

Support the teachers and remember that there are two sides to the story that your boy and girl brings home from school.

The cooperation and support of the parents who have a genuine interest in the schools and of the school board have been appreciated. Thanks are also due the Grange for its interest in the schools and for the important part given the schools in the annual fair.

Respectfully submitted,

JOHN S. GILMAN.

February 21, 1916.
